November 2018

To Whom It May Concern

Dear Sir / Madam

**RoHS DIRECTIVE 2011/65/EU**

I can confirm that all of our alloys meet the requirements of the RoHS Directive.

Lead and Cadmium are present in our alloys as impurities, and are below 30ppm to conform to the Zinc Alloys specification BS EN1774.

There are no additions to our alloys which are listed as substances of concern in the RoHS Directive.

If you have any further queries please do not hesitate to contact me.

Yours sincerely

Gerard Keane  
Managing Director  
THE BROCK METAL COMPANY LIMITED
